

Credit Checks

I am able to credit check Limited or Public Limited Companies via Creditsafe as I have purchased a resellers licence.

Creditsafe are the business information experts most chosen by UK companies. Creditsafe company reports are designed with ease of use in mind and give you all of the information you require to make informed business decisions.

The benefit to you is no long contract or expensive annual subscription.

Please provide me with as many details as you can and I can generally obtain the report within an hour.

The cost of a creditsafe report is £20.00 and whilst this doesn't guarantee you payment it will help you to decide whether you want to offer credit facilities to your potential customer.

If you wish to review the credit facilities you are offering your customers and want to buy a number of reports then please call me on: 01380 724019 for a price, I can offer a small discount if you buy more than 5 reports.
